Heating

Your room is fitted with its own wireless wall thermostat. For complete ease of use the thermostat only has two buttons, for turning the room's target temperature up and down. When your room reaches its target temperature, the radiators will close off to maintain your requested comfort level.

To turn up the room temperature:

Press and hold the > button on the thermostat for 3 seconds- the display will then flash.

Simply press the > button until you get to your new target temperature.

To turn down the room temperature:

Press and hold the < button on the thermostat for 3 seconds- the display will then flash.

Simply press the < button until you get to your new target temperature.
